Announcement

Indian Institute of Science is engaged in developing machine translation system as part of the National Consortium on Machine Translation System from Indian language to Indian language. Specifically Indian Institute of Science has been tasked with the job of developing machine translation system with the pair Hindi-Kannada (i.e. from Hindi to Kannada and Kannada to Hindi). In this regard we need to develop a large corpora of human translated sentences from which the computers could learn. At present we have a total of nearly 25000 sentences in each of the languages in the health and tourism domains as well as on recipe / gadget. We are hereby inviting people who could provide the translation of such corpora for which a reasonable sum of remuneration can be provided. We are specifically targeting home makers and language enthusiasts for this task. If you are interested, you may kindly go through the website <http://ilmt.serc.iisc.in/> and contact Ms Sandhya Rao at sandhya.rao06@gmail.com with the following details.

1. Name:
2. Qualification
3. Age
4. Address and contact details
5. Approximate number of hours per week you are willing to spare
